DEMONSTRATION

DIE-IN!

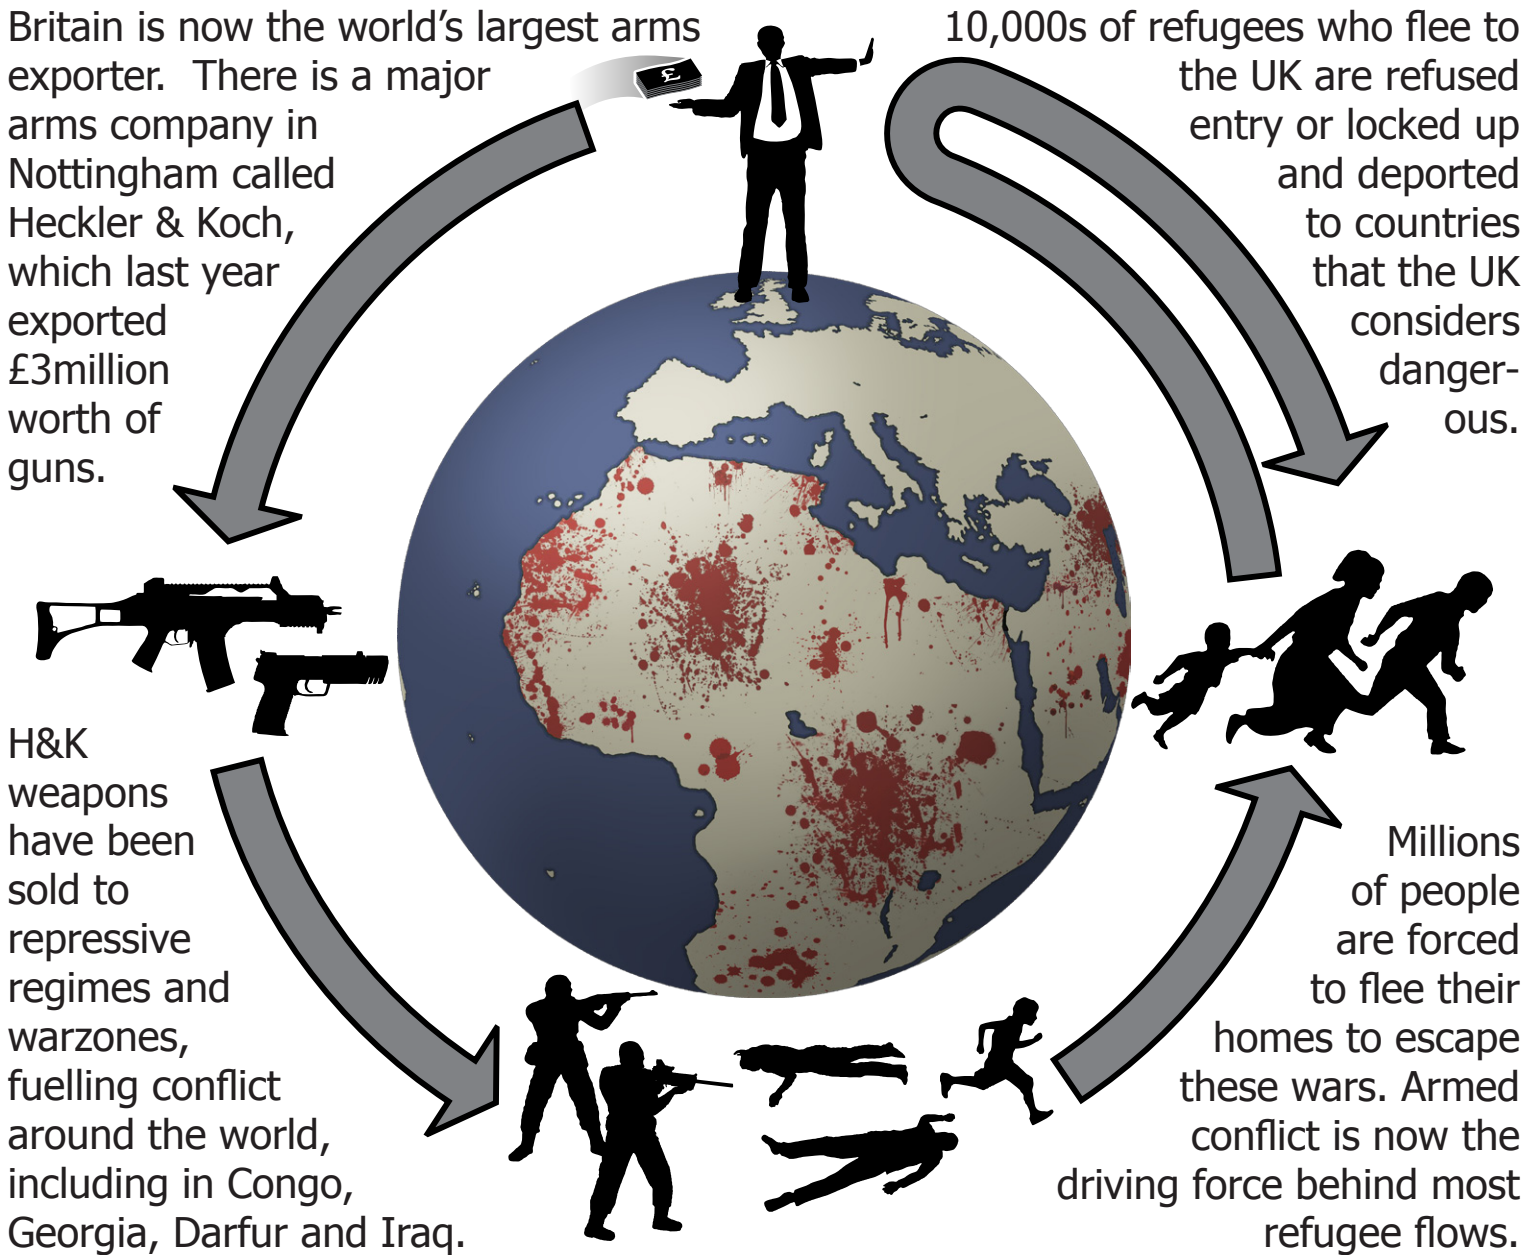

BRING DRUMS!

Britain is now the world's largest arms exporter. There is a major arms company in Nottingham called Heckler & Koch, which last year exported £3million worth of guns.

10,000s of refugees who flee to the UK are refused entry or locked up and deported to countries that the UK considers dangerous.

H&K weapons have been sold to repressive regimes and warzones, fuelling conflict around the world, including in Congo, Georgia, Darfur and Iraq.

Millions of people are forced to flee their homes to escape these wars. Armed conflict is now the driving force behind most refugee flows.

Shut down Heckler & Koch!
Freedom of movement and the right to remain for all!
No guns, no borders!!
